DETAILED ACTION

1. This action is responsive to the following communication filed on June 27, 2001.
Claims 3-4, 7-8 have been cancelled. Currently, remaining claims 1-2, 5-6, 9-24 are pending.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1, 2, 5, 6, drawn to a data processor for processing a block formed by two-dimensional data, classified in class 358, subclass 426.12.
 - II. Claims 9-24, drawn to Huffman Encoding, classified in class 382, subclass 246.
3. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as a Huffman encoder for encoding DCT coefficients into Huffman codes whereas invention I has a data processor for processing a block formed by two-dimensional data in a plurality of rows and a plurality of columns. See MPEP § 806.05(d).
4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
5. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Art Unit: 2622

6. A telephone call was made to Gregory Perrone on October 3, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made. Attorney could not be located at the time.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
